BLUGUARD P2P

Smart Security App

www.bluguard.com.my

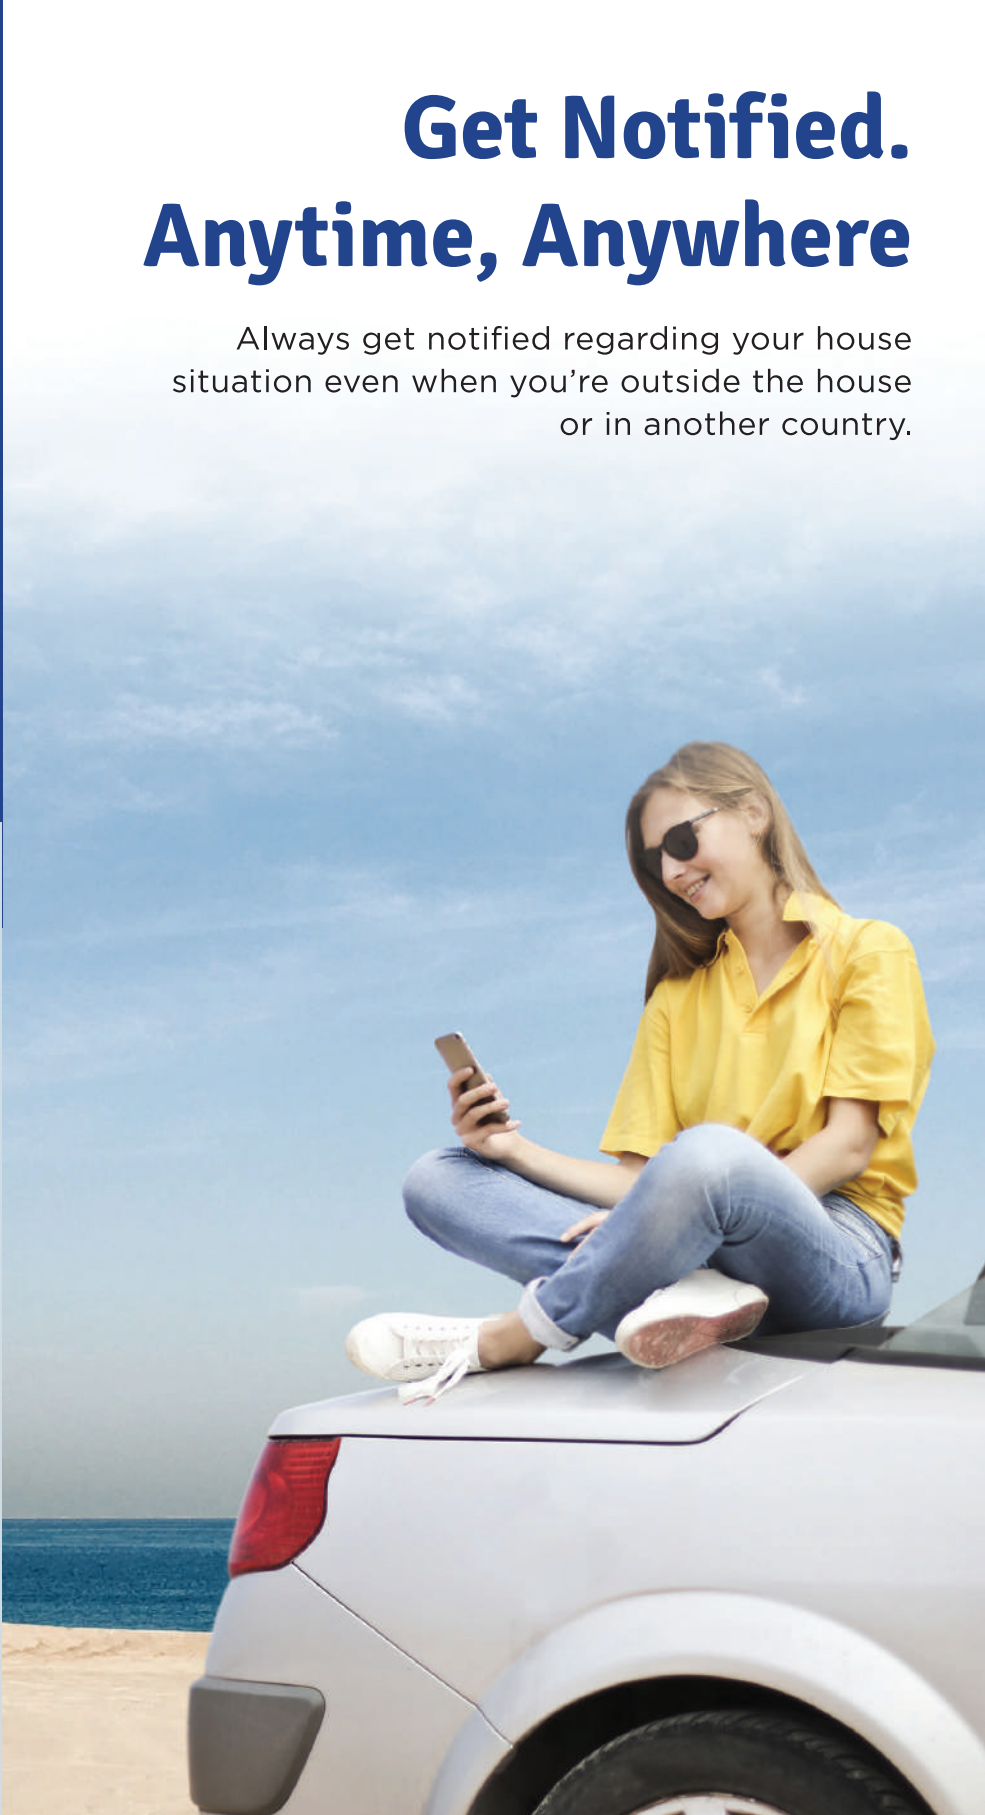

Mobile Remote Control

A 24/7 panic button in your mobile app that will trigger your house alarm system in an event of emergency.

Get Notified. Anytime, Anywhere

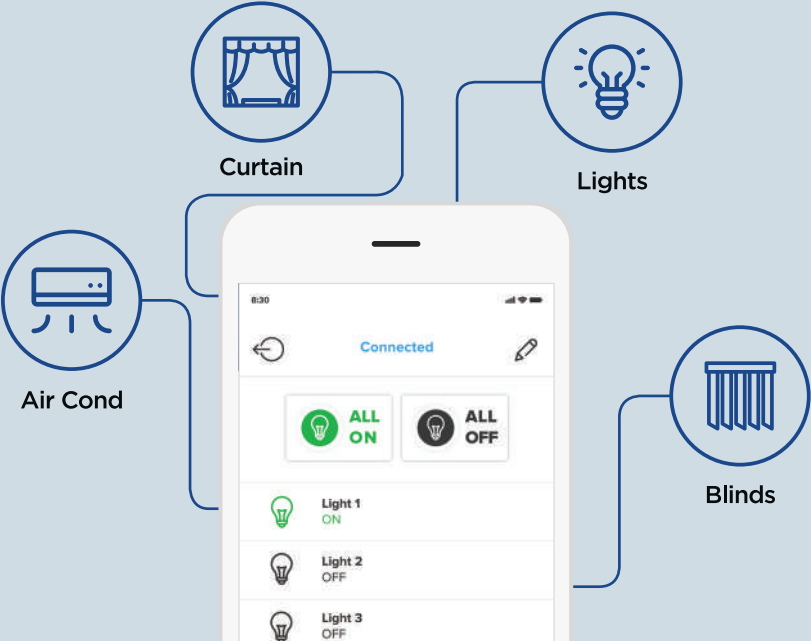

Always get notified regarding your house situation even when you're outside the house or in another country.

More Than Security

Turn your mobile into remote control mode as it can control your security system and also your home automation.

*additional module might be needed.

One App For All

Control your alarm and allows you to link different Bluguard alarm systems under one app.

Warning Siren

A notification with voice will always alerts you whenever your alarm triggered.
